### Two Weeks

AN INSTANT NEW YORK TIMES BESTSELLER From the #1 New York Times bestselling author of the Baxter Family novels—now a TV series—comes a heart-wrenching and redemptive story about a couple desperately waiting to bring their adopted child home and a young mother about to make the biggest decision of her life—a story about love, faith, and what it really means to be a family. Cole Blake, son of Landon and Ashley Baxter Blake, is months away from going off to college to kickstart the great plan he has been dreaming about for years—a career in medicine. But as he starts his final semester of school he meets Elise, a mysterious new girl who captures his attention—and heart—from day one. Elise has her heart set on mending her wild ways and becoming the good girl she used to be. But not long after the semester starts, she discovers she's pregnant. Eighteen and alone, she shares her secret with Cole. Undaunted by the news, and in love for the first time in his life, Cole is determined to support Elise—even if it means skipping college so he can marry her and raise another man's baby. When Elise decides to give the baby up for adoption, she is matched with Aaron and Lucy Williams, who moved to Bloomington, Indiana, in the hope of escaping the loss and emptiness that seven painful years of trying to start a family has brought them. But as her due date draws near, Elise becomes more and more torn. She knows she has two weeks after the birth of her daughter to change her mind. With Cole keeping vigil and Lucy and Aaron waiting to welcome their new baby, Elise makes an unexpected decision—one that changes everyone's plans.

## Nine and a Half Weeks

The classic erotic memoir of an intense and haunting relationship that spawned the film. This is a love story so unusual, so passionate, and so extreme in its psychology and sexuality that it takes the reader's breath away. Unlike The Story of O, Nine and a Half Weeks is not a novel or fantasy; it is a true account of an episode in the life of a real woman. Elizabeth McNeill was an executive for a large corporation when she began an affair with a man she met casually. From the beginning, their sexual excitement escalates through domination and humiliation. As the affair progresses, woman and man play out ever more dangerous and more elaborate sado-masochistic variations. By the end, she has relinquished all control over her body and mind. With a cool detachment that makes the experiences and sensations she describes all the more frightening in their intensity, Elizabeth McNeill beautifully unfolds her story and invites you to experience the mesmerizing, electrifying, and unforgettablly private world of Nine and a Half Weeks.

Two Weeks in Novemberis the thrilling, surreal, unbelievable and often very funny true story of four would-be enemies - a high ranking politician, an exiled human rights lawyer, a dangerous spy and a low-key white businessman turned political fixer - who team up to help unseat one of Africa's longest serving dictators, Robert Mugabe. What begins as an improbable adventure destined for failure, marked by a mixture of bravery, strategic cunning and bumbling naiveté, soon turns into the most sophisticated political-military operation in African history. By virtue of their being together, the unlikely team of misfit rivals is suddenly in position to spin what might have been seen as an illegal coup into a mass popular uprising that the world - and millions of Zimbabweans - will enthusiastically support. Impeccably researched, deftly written, and told in the style of a contemporary political thriller, Two Weeks in November throws you into the very heart of 'the game', a dangerous hidden world that makes you question what is real, what is choreographed, and whether anything can really change in a country where the same players are still dictating the rules.
