Review of the facts

What is a Flood? | Causes of Flood | Effects of Flood - What is a Flood? | Causes of Flood | Effects of Flood 2 minutes, 49 seconds - Ahoy! Let's Think! Today we answer the question “**what is**, a **flood**,?” So you probably have heard the word **flood**, before, but **what is**, ...

So you probably have heard the word flood before, but what is a flood?

A flood is a natural event or occurrence where a piece of land that is typically dry, suddenly gets submerged under water.

But what causes flooding?

Floods cause more than \$40 billion in damage worldwide annually.

Unfortunately floods typically do a lot of damage to the areas they occur in.

There are ways that floods can be prevented or reduced.

One of the biggest ways is by adding retaining walls or sand bags if you live in an area that is prone to flooding.

How to Prepare for a Flood | Disasters - How to Prepare for a Flood | Disasters 4 minutes, 8 seconds - Discover the instructions to follow before, during and after a **flood**,. Learn to protect yourself whilst battling the elements with the ...
