

# 5 Of Earth's Surface

## Earth

liquid surface water. Almost all of Earth's water is contained in its global ocean, covering 70.8% of Earth's crust. The remaining 29.2% of Earth's crust...

## Earth's outer core

Earth's outer core is a fluid layer about 2,260 km (1,400 mi) thick, composed of mostly iron and nickel that lies above Earth's solid inner core and below...

## List of sovereign states and dependent territories in South America

South America has an area of approximately 17,840,000 square kilometres (6,890,000 sq mi), or almost 3.5% of Earth's surface. As of 2018, its population is...

## Earth's inner core

Earth's inner core is the innermost geologic layer of the planet Earth. It is primarily a solid ball with a radius of about 1,230 km (760 mi), which is...

## Moon (redirect from Earth's moon)

The Moon is Earth's only natural satellite. It orbits around Earth at an average distance of 384399 km (238854 mi; about 30 times Earth's diameter). Its...

## Earth's orbit

time Earth has traveled 940 million km (584 million mi). Ignoring the influence of other Solar System bodies, Earth's orbit, also called Earth's revolution...

## Earth's energy budget

Earth's energy budget (or Earth's energy balance) is the balance between the energy that Earth receives from the Sun and the energy the Earth loses back...

## Atmosphere of Earth

The atmosphere of Earth consists of a layer of mixed gas that is retained by gravity, surrounding the Earth's surface. Known collectively as air, it contains...

## Earth's magnetic field

Earth's magnetic field, also known as the geomagnetic field, is the magnetic field that extends from Earth's interior out into space, where it interacts...

## Remembrance of Earth's Past

Remembrance of Earth's Past (Chinese: 三体; pinyin: Dìqiú Wǎngshì; lit. 'Earth's Past') is a science fiction novel series by Chinese writer Liu Cixin....

## **Internal structure of Earth**

its mass. Astronomers can also calculate Earth's mass by observing the motion of orbiting satellites. Earth's average density can be determined through...

## **Earth's internal heat budget**

Earth's internal heat budget is fundamental to the thermal history of the Earth. The flow of heat from Earth's interior to the surface is estimated at...

## **Empirical evidence for the spherical shape of Earth**

number of effects and phenomena that when combined disprove flat Earth beliefs. These include the visibility of distant objects on Earth's surface; lunar...

## **Earth's mantle**

67% of the mass of Earth. It has a thickness of 2,900 kilometers (1,800 mi) making up about 46% of Earth's radius and 84% of Earth's volume. It is predominantly...

## **Gravity of Earth**

Earth's surface, the acceleration due to gravity, accurate to 2 significant figures, is 9.8 m/s<sup>2</sup> (32 ft/s<sup>2</sup>). This means that, ignoring the effects of...

## **Lithosphere (redirect from Surface of the earth)**

from Long Period Surface Wave Dispersion" (PDF). Retrieved 2014-04-25. Barrell, J. (1914). "The strength of the Earth's crust". Journal of Geology. 22 (4):...

## **Geographical zone**

The five main latitude regions of Earth's surface comprise geographical zones, divided by the major circles of latitude. The differences between them...

## **Ocean (redirect from Earth's oceans)**

essential to life on Earth, harbouring most of Earth's animals and protist life, originating photosynthesis and therefore Earth's atmospheric oxygen, still...

## **Hydrosphere (redirect from Earth's Hydrosphere)**

the combined mass of water found on, under, and above the surface of a planet, minor planet, or natural satellite. Although Earth's hydrosphere has been...

## **Greenhouse effect (category Effects of climate change)**

case of Earth, the Sun emits shortwave radiation (sunlight) that passes through greenhouse gases to heat the Earth's surface. In response, the Earth's surface...
