What If We Lost Gravity for 5 Seconds?

So, what is Gravity?

the first thing that will happen

so the impact of lack of gravity

you could experience winds

the earth's atmosphere would disappear

which would immediately rupture the inner ears

there will be no oxygen on Earth.

What if the earth lost oxygen for five seconds

the pressure of the Earth's inner core

will cause the planet to expand

leading to significant earthquakes

the end of the world for us.

not to take gravity for granted

Did you know astronauts

and their sense of balance changes
