Jackals

The Zaharets, the land between the Vori Wastes and the Plains of Aeeco, is well-known as the Land of Risings. Dominated by the rising city-states of Ameena Noani and Sentem, facing each other along the great War Road, the Zaharets has always been home to powerful civilizations. Beastmen ruins dot the landscape, a constant reminder of the Kingdom of Sin and the fragility of the Law of Men. Even older are the great ruins of the Hulathi, the legendary sea peoples, and the Hannic mansions sealed beneath the mountains, awaiting those who would seek out the Lost Folk. Scars abound from the wars between ruined Keta in the north and Gerwa in the south. And, far to the east, the legends of Muadah still beckon occultists and Jackals who seek to plunder its corrupted ruins. Inspired by the myths, cultures, and history of the Ancient Near East, and by such ancient texts as the Iliad, the Epic of Gilgamesh, and the Old Testament, Jackals is a Sword & Sorcery roleplaying game set in a Fantasy Bronze Age. With mechanics based on the popular OpenQuest system, the game places players in the role of Jackals – adventurers, explorers, sellswords, and scavengers – and sends them out into the peril-filled land of the Zaharets to make their fortune... or perhaps fulfill a greater destiny...

Jackals, Golden Wolves, and Honey Badgers

This book explores the fascinating and complex lives of the honey badger, the African jackals (black-backed and side-striped), African golden wolves, and Eurasian golden jackals. In recent years, interest in these creatures has grown exponentially, through wildlife documentaries and media clips showing the aggressive, fearless, and tenacious behaviour of the honey badger, with jackals often presented in a supporting role. Written by renowned journalist and educator Keith Somerville, this accessible volume includes historical narratives, folklore, and contemporary accounts of human–wildlife relationships and conflicts. It traces the evolution of the species; their foraging and diet; the development of their relationships with humans; and their commensal, kleptocratic, and symbiotic relationships with other carnivores, raptors and birds. It also charts the recent expansion in European jackal numbers and ranges, now including as far west as the Netherlands and as far north as Finland. Blending historical observations by non-scientists, colonial officials, administrators, and early conservationists with contemporary scientific accounts, it presents a new multidisciplinary approach that will interest researchers, scientists, and students in wildlife conservation, human–wildlife relations, zoology, biology, and environmental science.

Hunting the Jackal

Billy Waugh is a Special Forces and CIA legend, and in *Hunting the Jackal* he allows unprecedented access to the shadowy but vital world he has inhabited for more than fifty years. From deep inside the suffocating jungles of Southeast Asia to the fetid streets of Khartoum to the freezing high desert of Afghanistan, Waugh chronicles U.S. Special Operations through the extraordinary experiences of his singular life. He has worked in more than sixty countries, hiding in the darkest shadows and most desolate corners to fight those who plot America's demise. Waugh made his mark in places few want to consider and fewer still would choose to inhabit. In remarkable detail he recounts his participation in some of the most important events in American Special Operations history, including his own pivotal role in the previously untold story of the CIA's involvement in the capture of the infamous Carlos the Jackal. Waugh's work in helping the CIA bring down Carlos the Jackal provides a riveting and suspenseful account of the loneliness and adrenaline common to real-life espionage. He provides a point-by-point breakdown of the indefatigable work necessary to detain the world's first celebrity terrorist. No synopsis can adequately describe Waugh's experiences. He spent seven and a half years in Vietnam, many of them behind enemy lines as part of SOG, a top secret group of elite commandos. He was tailed by Usama bin Laden's unfriendly bodyguards while jogging through the streets of Khartoum, Sudan, at 3 A.M. And, at the age of seventy-two, he marched through the frozen high plains of Afghanistan as one of a select number of CIA operatives who hit the ground as part of Operation Enduring Freedom. Waugh came face-to-face with bin Laden in Khartoum in 1991 and again in 1992 as one of the first CIA operatives assigned to watch the al Qaeda leader. Waugh describes his daily surveillance routine with clear-eyed precision. Without fanfare, fear, or chance of detection, he could have killed the 9/11 mastermind on the dirty streets of Khartoum had he been given the authority to do so. No man is more qualified to chronicle America's fight against its enemies -- from communism to terrorism -- over the past half-century. In *Hunting the Jackal*, Billy Waugh has emerged from the shadows and folds of history to write a memoir of an extraordinary life for extraordinary times.

Jackal Stories

The jackal has a bad reputation in the animal world. Devious, selfish, dishonest and boastful, his aspirations are high, but his talents few. He seldom repays a favour. Should such a creature be tolerated? Only so long as he uses his cunning for the good of the community, says the wisdom of these Jataka tales which were written as early as the period between 3rd century BC and 5th century AD.

The Lion and the Jackal

A tale from the Buddhist tradition about a community of lions and jackals that learns that friendship is built on trust and generosity retold for young readers.

New rites, virtues, and talents provide further customization options, while adventure hooks scattered throughout the book hint at new menaces to be

battled, new challenges to be overcome... and new glories to be won!

Dogs, Jackals, Wolves, and Foxes

The series TALL TALES OF OLD INDIA is a modern English retelling of The Panchatantra (literally five books), a collection of millennia old Indian morality tales. Eighty five stories depict animals and humans struggling with thorny issues of friendship, collaboration, conflict and ambition. Relentless in their unwillingness to whitewash or romanticize adult life, they describe the ignoble as well as the noble, cruelty and deceit as well as honor, foolishness as much as cunning, deception as rampant as honesty. Lion, Bull and Two Jackals, the first collection of thirty three stories deals with friendship. It shows how the close friendship between the Lion and the Bull was formed, grew and eventually was destroyed by a mean and conniving Jackal. It highlights how friendship, indeed all relationships, needs tending. Cultivating friendship, like cultivating a flower, needs careful fertilizing, feeding and pruning. But the lessons go beyond how to treasure and keep enduring friendships. They include how to treat others with respect, honesty and loyalty but be on guard when others are trying to do you harm.

The rapprochement of anthropology and literary studies, begun nearly fifteen years ago by such pioneering scholars as Clifford Geertz, Edward Said, and James Clifford, has led not only to the creation of the new scholarly domain of cultural studies but to the deepening and widening of both original fields. Literary critics have learned to "anthropologize" their studies--to ask questions about the construction of meanings under historical conditions and reflect on cultural "situatedness." Anthropologists have discovered narratives other than the master narratives of disciplinary social science that need to be drawn on to compose ethnographies. Culture/Contexture brings together for the first time literature and anthropology scholars to reflect on the antidisciplinary urge that has made the creative borrowing between their two fields both possible and necessary. Critically expanding on such pathbreaking works as James Clifford and George Marcus's Writing Culture and Marcus and Michael M. J. Fischer's Anthropology as Cultural Critique, contributors explore the fascination that draws the disciplines together and the fears that keep them apart. Their topics demonstrate the rich intersection of anthropology and literary studies, ranging from reading and race to writing and representation, incest and violence, and travel and time. Crimson Fox: The Complete Collection

A RAT THAT ATE IRON. A BIRD WITH TWO HEADS. FOUR GREEDY TREASURE-SEEKERS. A DOG THAT WENT TO FOREIGN LANDS TO FIND FOOD. These are only a few of the colourful stories that long, long ago – it is said – a sage told three princes so that they could learn to live wisely. Instead of giving them boring lessons, the learned tutor told them fables alive with animals and human characters faced with difficult situations about friendship, cooperation, quarrels and ambition. The tales told by Pandit Vishnu Sharma about 2,500 years ago offer a map of how to make one's way through life in a moral and wise manner. These stories of friends and enemies, cruelty and deceit, honour and humility, foolishness and cunning, deception and honesty, tell us about the choices we have and how to find a solution to tough questions of right and wrong. This all-colour, beautifully illustrated edition contains stories retold from all five books of the *Panchatantra* and is designed to make it easy for readers to move from story to story, and across stories within stories – making it a must-have for readers young and old.

Knowledge

Originally published in 1969, this book is a translation of Frank Edgar's Hausa folk stories, which was made primarily in Sokoto Province at the direction of Major John Alder, who in 1910 gave Edgar some Hausa texts written in the Ajemic script for transliteration into Roman characters. Edgar prepared the the first volme of

the Tatsuniyoyi for publication in 1911. The Hausa whose folklore Edgar recorded so industriously are the largest ethnic group in Northern Nigeria and number many millions and these tales of past events show how Hausa conceive the histories of their states, the characters of their rulers, and their institutions of government and law. These traditions are thus equally important as documents of folk thought and as historical sources.
